## Guard Arrives Saturday, To Find Many Improvements At Cp. Grayling

Expect About 9,000 At Encampment

Michigan's 9,000 National Guardsmen will find \$170,000 worth of improvements when they arrive at Camp Grayling at the start of this week to commence a six month training period.

The 12th encampment since the end of World War II will run from Aug. 9 to 23 at Grayling, and the bulk of 4000 division and attached units will train there.

The National Guard airport at Grayling has been improved to a extent of \$3,000, which will assist residents of the community, according to Brig. Gen. Ronald D. McDonald, quartermaster general of Michigan. That project, along with the new hospital and new airport, will be completed by the end of the review period.

Two lighted ball fields — one at the north end of the review field and the other in the new cantonment area.

A "good start" on a new dock for swimming and boating, which is to be enlarged in the future.

New gravel and clay surface on the unit maintenance area, to get mechanics "out of the sand."

Fourteen truck washing points — concrete slabs with running water that will leave the artillery "about eight short of having enough."

A two-room extension on the camp headquarters, to provide space for the quartermaster general and senior Army advisor. That will separate the senior advisor from the division advisors.

A new road, with eight-inch gravel base and light gravel topings, to an improved ammunition storage area on the south end of the camp. It will be a two or three year project to complete facilities for safeguarding explosives.

The planned attendance at the camp this year is 9,000 compared with 9,740 at Grayling last summer. Col. Howard E. Deric, assistant adjutant general, pointed out that Guardsmen who take six month training are not eligible for two week field duty, so that will reduce attendance by an estimated 500 to 600. Guardsmen at Army "Nike" sites in the Detroit area put in their two weeks "on location" during July.

Advanced detachments of the 48th division units throughout Michigan will move into Grayling Wednesday, Aug. 6, to make preparations for training. Most of the large units will commence moving as early as one minute after midnight Saturday morning, in order to get highways cleared of trucks and buses as little interference as possible with weekend traffic.

State police have been advised by National Guard authorities that convoys will be "kept short."

The equivalent of a state police unit will be set up in each camp.

It appears as though Snuggins has this one pretty well worked out as they hit 3-0 going into the last of the sixth inning. However, in the last half of the ninth Millikan had come up with six hits and seven runs to take the lead.

Then with the pressure on them, Snuggins came up with the necessary runs to tie the score, and then won the game in the eighth inning with three runs on four hits. Troopers outdid the winners 11-6. Bob Horning, of Millikan was the top hitter of the game with three hits.

The big game last week was the battle of the guards, Snuggins and Millikan. Their last meeting of the season second place Millikan Construction, regulars of the lead in the City Council Softball League. However, that night Snuggins was one-half game and second place Millikan had played one less game. Snuggins also moved ahead of Kelsey in the battle for third place and became their highest placed team to move into Grayling.

Snuggins, however, had to give up the lead to the regulars.

## Life in a Troubled Land

But a Girl f. on the "d Fi. Home in the Old

BY PAULINE STERLING

Detroit Free Press Staff Writer

None of the letters the Joseph Lemkes, of 1356 Bishop Road, have received from their daughter, Barbara, now living in Jordan, have hinted at the trouble that has thrown fear into the rest of the world.

The Jordan she describes is a place where some women still veil their faces—where dial telephones are being installed—where an American lives comfortably in a modern apartment, circling a patio, and where short distance from home one meets a camel caravan, whose leader flashes a dagger.

Barbara, a graduate of Marygrove College, and a former teacher at Lillibridge School was married to Sgt. A. J. Charron, of Grayling, in May of last year and left with him the day after Easter this year for Amman where he was assigned to the American Embassy.

Barbara's first astonishment in the country, where some dress as the shepherds of Biblical times—others in Western garb and still others, a combination of the two, was to see the great number of 1958 American-made cars sharing the road with donkeys and pedestrians—all arguing about the right of way.

She told of seeing eight smelly goats herded into a new Chevrolet.

One of her letters told of dining with a Sheik. This was at 2:30 p.m., the time Jordanians have their main meal. He lived in a too-modern home. But once inside, she said, things were more as one would imagine.

The Sheik served us Bedouin coffee in dimitasse cups from a beautifully decorated gold pot. After coffee we were led into the next room.

Arranged on the floor in circular fashion were fine rugs of hyena and gazelle skin. A huge platter, edged with paper-thin sheets of bread, was piled high with rice (drenched in sheep's

Amman), writes Barbara, on seven hills. One is covered with refugee homes, built so close together there's hardly space to walk between them. Elsewhere hundreds of new houses are going up, the work on which is all done by hand. Huge stones, she said, are handled with ease by wrinkled, little old men.

The streets are lined with shops butter) and on top of it was a whole boiled lamb—eyes and all. One digs in with the hands. The proper Bedouin way to eat such a dish (Mansaf) is to form a handful of rice and lamb into a ball, then toss it into the mouth.

"After we washed up, the Sheik sprayed our hands with perfume. Then there was more coffee, Turkish, this time, and lots of fruit."

Parents Take Heed . . .

A rash of breaking and entering of cottages, destruction of furnishing, slashing of tires and other acts of vandalism have broken out at Lake Margrethe. There has also been some of the same around town.

Cutting boats loose to drift and other petty acts of his nature such as throwing logs against doors and many others, also have occurred. The community newspaper would be remiss in its duty if it did not point out the children or young adults involved that these acts are unlawful and could certainly bring punishment of some kind to the perpetrator and also to those accompanying him as accessories.

We take this opportunity to, to point out to the parents of these youngsters that they can be held fully liable for the destruction of property and be made to replace it or to make restitution for it. It would be an extremely good idea from now to know where your children are, whom they are with and what they are doing. This is especially true in the late evening and early night hours.

Several months back, the Crawford County Probate Judge issued a warning that vandalism was not going to be tolerated and that one of the terms of probation in such cases would be the restitution of such destruction or theft in full. A call to the Court before this editorial was written found that Judge Neafie still was of the same mind.

People work hard to possess things and they will not stand by to see them destroyed. As we said in the headline, take heed, you have been warned. It could hit you in the pocketbook if your child is involved.

There is yet another side to this issue, several residents at the Lake where some of this vandalism has been occurring have stated that someone might get hurt if this sort of thing continues. And well they might too! A property owner has the right to protect his property and in the night time it sometimes is difficult to tell an older child from an adult. We know that no one would wish to bodily injure a child, but . . . it could happen as a mistake. We are not looking forward to publishing any news stories concerning such happenings.—R. W. S.

After deliberation for some weeks, July 18 completed the attachment of all three school districts of Maple Forest Township to Frederic Township School District. Frederic school will serve the children of these three townships for the coming years, the children from outside of the village of Frederic or close by, to be transported by buses to the school. Dorf Stack of the Department of Public Instruction spent the day with the Board of Education and Supt. Lewis, after which he gave full approval establishing Frederic school as an approved State Agricultural School. This approval gives substantial financial aid for the support of the school and in turn all High school boys will have two years' work in shop and agriculture while the girls will have the same time in sewing and cooking and home management. In this class of schools the State holds close supervision and all High School teachers must have Degree Life certificates with special training in the Education fields in which they teach while the grade teachers must hold at least Life Certificates.

Miss Isa Granger, daughter of Mrs. Celia Granger, became the bride of Mr. UHarley Russell, son of Mr. and Mrs. C. E. Russell of Jackson at a very pretty wedding solemnized at 4 o'clock Saturday afternoon at Michelson Memorial Church. Rev. Edgar Florey officiated and the bride's brother and sister-in-law, Mr. and Mrs. George Granger, were the attendants. Friends of Dick Thompson will be pleased to learn of his marriage, Sunday afternoon, to Miss Annabelle Pethers, daughter of Mr. and Mrs. George Pethers of Johannesburg. The marriage was solemnized at the M. E. parsonage with Rev. Edgar Florey officiating and they were attended by Mr. and Mrs. C. E. Russell, the groom, the son of Thomas Thompson of Lewiston and is employed with Kerr and Hanson and the bride has made her home here in town for some time.

Among the Crawford County 4-H club boys and girls who attended the annual camp at Camp Gay-Gay-Lin, Gaylord, last week, were members of the clubs known as the Willing Workers and Au-Sable Handcraft clubs. Of the clubs here Mrs. Arthur Wakeley is leader of the clothing project and Mrs. Harold Skingrey of the canning. Zina, Yvette and Ted Stephan and Virginia, Robert and Walter Slingley attended the camp. Zina Stephan and Virginia Slingley represent Crawford County in the style review. This was the tenth annual camp and this year had the largest enrollment in its history of 400 boys and girls. Twenty-six counties were represented.

Mr. and Mrs. Arthur Warden are jubilant over the arrival of a son, born yesterday morning. The attendant said, "I lived all my life right here in town!"

I Bagwell  
Energetic  
candidate

CANDIDATES have an energetic running for governor. When voters have at a time when energy, sparkle and enthusiasm are needed, they are used to energy, sparkle and enthusiasm.

Paul D. Bagwell, who won the election with crazy hats, shiny vests and slogans, well learned the technique when he was elected president of the Junior Chamber of Commerce a few years ago. He again in the years since he served as state Marching band chairman. Bagwell has times professional in his campaign, and they are growing with the

Campaigners have been tacking small signs in every cranny, and was here on the campaign trail as well known as a boy of World War II fame. They paid \$1,700 for a 1908 Olds to carry him on his campaign to minimize the age of the state constitution and hint at Democrats have held the office long enough.

Bagwell's speeches are full of old college zip, but laced with tough facts that tip by dedicated speakers. He comes unapologetically to the first or a series of meetings to determine the leader of the British bulldog.

One report quoted an aide as saying "Bagwell had to talk him into coming uninvited" to a legislative meeting at Cheboygan. He was a handshaking master of the hand.

Though he was eyed with misgivings by some Republicans that he lacked Williams, Bagwell has been advised to avoid mistakes of his unsuccessful predecessor.

So now, he will seek out Legislators in their districts and ask their advice . . . which he can use, and offer his help — which most legislators use.

Other Republican candidates have encountered wide schisms in the party, which he hopes to circumvent.

In contrast of the Bagwell effort with the highly-tuned Democratic machine is startling.

From Gov. Williams down to the newest precinct workers, the party is organized. It is the workmanship of State Chairman Neil Staebler and the result of dedication to a cause.

Staebler enjoys phenomenal success in keeping the party interested and fighting during the dull off-years between campaigns. He has organized contests, coffee hours, style shows. No one ever worked for the Democrats has ever been forgotten unless he strayed from party principles.

Another maneuver is the "promotion-appointment" system Williams uses.

When an important vacancy occurs, Williams names a worker in a lesser post to fill it. The creates two appointments where only one vacancy existed.

It has the tendency to keep young men working in state government, and for the party. Williams chooses his appointees carefully. Few have fallen short of the intelligence, diligence and stamina demanded of important public jobs.

It is safe to assume that none will vote for Bagwell and, maybe, they will even distribute Williams' bumper stickers and help fill a hall occasionally for one of his speeches.

One observer put it cynically: "For a Republican candidate to win now, he has to be a popular Williams, and most of state government, in addition to getting his own people behind him."

OFFICIALS ARE WORRIED about a new threat to the state's safety record: the 100-mile-an-hour speeder. Secretary of State James M. Hare predicted his driver record file would have more than 400 cases by the end of the summer.

He has asked for a combined radio network to link State Police and Sheriff's cars to trap speeders who can outrun the fastest law enforcement vehicles.

"None of our police cars can

go 130 miles an hour and we're being outclassed," he said.

## BITS O' TALK

Mrs. Glen Fenton and daughter Peggy left Friday to spend two weeks at Douglas visiting her daughter and family, Mr. and Mrs. Ed Holcamp and baby.

# The Hidden Values

you get  
with every  
purchase  
in your  
HOME TOWN  
STORES

It Pays to Buy  
where you Live

YOUR DOLLAR spent in your home community will get you just about the same size package of merchandise or service that a dollar will buy anywhere else.

But there's a BIG BONUS you get when you buy where you live . . . an extra reward for buying at home.

YOU DON'T ALWAYS NOTICE IT or think about it when you're buying, but it's there just the same . . . hidden in the intricacies of modern life.

IT COMES TO YOU in the form of a busier and more prosperous community . . . a place

in which you can make a better living . . . easier. This premium for buying in your own community includes better schools, stronger churches . . . and neighbors who are more able to share in the work and the expense of all community projects.

This EXTRA VALUE that you get for your home-spent dollar also includes greater opportunities for you and your children . . . better shopping facilities and more skilled service people conveniently at hand, and . . . most important of all, the quiet and full life that only those can know who live in a prosperous American rural community.

These Grayling Business Establishments Are Genuinely Interested in the Future of This Community and in your Welfare — Trade At Home Where Your Money Benefits You!
